

♡ FLIRTY DICE ♡

The person with the longest eyelashes goes first. Roll three dice, turn to the person to your left and follow the key below to put together your unique flirt. Don't show the other players the flirting key on your turn - you want them to be surprised by your flirt! When you are the object of the flirting, you can respond to what is happening in the moment - answer any questions, giggle back, etc. Feeling competitive? Keep track of the total points you roll each round. The winner is the person with the score closest to 69.
